Go ahead charge to the Homestake TDD for the radon testing. I have not contacted Larson yet. Check with Clara and see how she feels about it.

Good Morning!

I'm having problems sending email from my Weston account so I'm using my personal at the moment.

What is the status of (b) (6) property with the tribe? I spoke with (b) (6) (b) (6) and he stated he returned the key to Mrs. (b) (6) and the handling of the property is a tribal affair. We need to know the appropriate time to contact Mrs. (b) (6) about completing the abatement activities.

We should be sampling the new house in Homestake for radon once canisters arrive. How would you like us to handle billing?

I received a call from Mrs. (b) (6) in Seboyeta this morning and she is concerned about potentially contaminated railroad ties from the Jackpile/Laguna rail spur being used near her. She stated that Laguna gave the ties away for free and a lot of her neighbors have collected them for use in

their yards.

Thanks and hope all is well,

Olin Garren
